### **A Note about School Safety, Security and Positive Relationships at School**

All staff members at Crockett County Schools want each child to enjoy an exciting, happy and safe day at school every single day. We pledge that we will be on guard at all times, ensuring that the school environment is as free from hazards, including emotional distress.

Our teachers and staff will be reinforcing a positive school climate free from harassment and bullying, and will incorporate a number of strategies and educational activities aimed at developing and reinforcing positive relationship skills and personal responsibility in all students.

Throughout the year we will engage in regular effort and activities designed to teach personal pride and respect for others at all times, including how to report and learn from negative behaviors, including harassment, bullying, and cyber-bullying. Your child will be learning coping skills, relationship and conflict resolution skills, and technology skills that help them to conduct themselves respectfully at all times and to encourage other to do so as well.

Of course – these efforts are always age-sensitive and developmentally appropriate. We also need help at home from parents, friends and family to reinforce positive decision-making and respect for others at all times.

Our teachers, staff and administrators are committed to ensuring that every child loves school and enjoys security at every school event. Please visit with your child's campus personnel to find out more about specific activity and effort at each campus.

Please also refer to Policy links posted on our website to maintain awareness of District expectations and administrative rules related to School Safety, Including Safe Use of Technology as well as Harassment and Bullying Prevention.

Feel free to call me any time with your questions or concerns.

Sincerely,

Chris duBois  
Superintendent
